Professional Objective

Opportunities to use ingenuity, creativity and leadership to produce efficient and attractive ways of helping people solve problems and reach their goals.

Education

Clemson University

Bachelor of Science with Honors in Computer Science, May 2008
Cooperative Education Certificate
GPA 3.13 (3.49 Major)

Relevant Skills

Software Programming, Web Development, Database Design

- Developed and maintained issue tracking and content management software for Mount Vernon Mills Inc.
- Wrote several sections of the North Georgia Hunting land distribution website, including database interaction and a bidding system.
- Constructed database interaction code and an attractive, intuitive interface for the Clemson Fellowship of Christian Athletes web site.

Website Design, Graphic Design, Usability Optimization

- Created gallery websites to engagingly display the portfolios of photography students graduating from the Art Institute of Atlanta.
- Redesigned the interactive local web page system (intranet) and content management system for Tire Centers Inc.

Marketing, Team Interaction, Leadership, Self-Motivation

- Formed Engenius Development LLC with a partner to design high-end websites and help grow businesses.
- Organized a growing group of people to create and run a nonprofit coffee house in downtown Clemson, SC for the purpose of raising funds for Hurricane Katrina disaster relief.
